

MSCMF 2.0 / Wing dimensional study

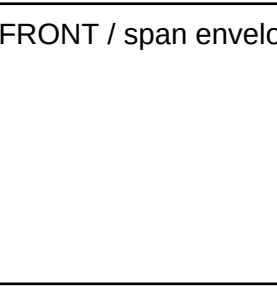

NOT A MANUFACTURING OR STRUCTURAL RELEASE / all dimensions in metres

SIDE / chord profile

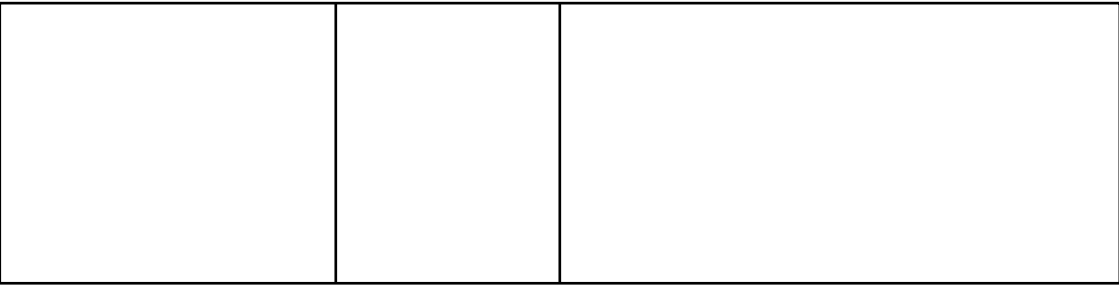

Chord 80; nominal thickness 20; t/c 0.25

FRONT / span envelope

Span 20; independent pipe reference surfaces shown in top view

TOP / rectangular span envelope

Pipe 1: reference diameter 1.2 m; wall/pressure rating unresolved
Pipe 2: reference diameter 1.2 m; wall/pressure rating unresolved

Missing: cavity walls, joints, anchors, certified materials, design wind, buckling/fatigue, tolerances and applicable-law assessment.
Symmetric profile is a visualization model. Dimensional precision in this PDF is not demonstrated manufacturing accuracy.
